

1

What standard would you use to assess which of two people is more influential?

2

Who is the most influential?

3

Observing and Measuring Influence

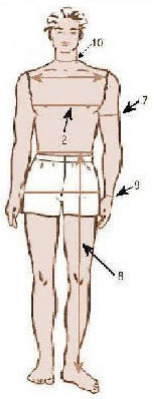

How do you know an individual or organization has influence?

Def:

Someone who gets others to take actions they would not otherwise

Note: This is probabilistic, of course.

E.g., how likely is it that your request will be fulfilled? Increasing the likelihood from, say, 20% to 60%, could mean you're pretty powerful.

4

Understanding Influence

We can understand these influence questions better by thinking of different aspects of influence:

Sources

Means

Scope

5

Sources of Influence

Structure
- Placement in an organization, nature of an organization, rules
  - e.g. purchasing unit, "gatekeepers"

Traits
- E.g., energy, focus, sensitivity, flexibility, conflict tolerance, getting along

Relationships
- "work in organizations is more like football than golf"

Tactics
- Need facility with a wide range of levers

Culture
- Organizational values and expectations
  - e.g., In some places, loud assertive behavior is a sign of weakness not strength

Situation
- Needs of the moment, personalities of those involved, etc.

6

Means of Influence

What are the tools available?

- Formal tools
  - Laws, rules, incentives, obligations, roles
- Informal tools
  - Persuasion, alliances, moral, guilt, kinship, ethnic, etc.
    - E.g., guanxi

7

Scope of Influence

Range of preference which can be satisfied

- You have influence over many substantive areas

Number of people/organizations affected

- You have influence over many people

8

Other dimensions of influence?

Duration
Resistance able to overcome
Immediacy
Transferability/Delegate-ability
Reserves (how often can you go to the well?)
…

9

To understand power, and use it, you must appreciate its dimensions and nuance.

10

Course Overview

Requirements

- Class participation (31%)
  - Attendance
  - Class discussion
  - Peer evaluation
- Daily exercises (31%)
  - Web surveys
  - Applications
  - Persuasion assignment
- Out-of-class negotiation exercise (7%)
- Make It Your Own (MIYO) final project (31%)

11

Course Overview

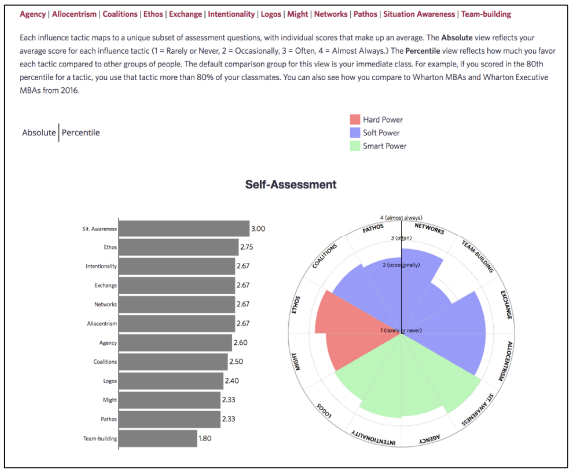

Case studies in effective/ineffective influence

12

Course Overview

A personal assessment (the "Leverage Inventory")

13

Course Overview

CLASS	DATE	TOPIC	CASE/SURVEY EXERCISE	READING
Why Influence Matters				
1	**20-Oct**	A Just World	Analytics Ablaze	Ibarra; Pfeffer
2	**22-Oct**	Pragmatism	Sergio de Mello	S. Power
3	**27-Oct**	Authority	Moses & Sadik-Kahn	Caro; Taddeo; Grynbaum; F&R
4	**29-Oct**	Ethics	Vignettes exercise	Banaji, et al; Machiavelli
Sources of Influence				
5	**3-Nov**	Informal Networks (I)	Burt	
6	**5-Nov**	Informal Networks (II)	Heidi Roizen	Fralic; Cain
7	**10-Nov**	Persuasion (I)	Persuasive email exercise	Heath & Heath; Cialdini
8	**12-Nov**	Persuasion (II)	Video pitches, VITA	Warmth & competence note
9	**17-Nov**	Personal Assessment	Leverage Inventory	Massey; LBJ/Caro
10	**19-Nov**	Coalitions	Three-Way Organization	Slate
Integrating Influence				
11	**1-Dec**	Status	Sapolsky's baboons	Kramer
12	**3-Dec**	Capstone	Donna Dubinsky	Pope Francis, Abraham Lincoln
	11-Dec	Final Project Due		

14

(AKA reasons to not take the class)

Some important features of the class

Regular surveys

- A way to bring more of your thoughts into class
- Occasionally a way to force reflection after class

Participation in discussions is vital

- Active engagement is key to learning
- A chance to practice speaking in groups
- You should expect to participate every half day you walk in

You cannot use laptops, phones or keyboards in class.

- Only "iPads" flat on desk (without keyboard)
- I will actively enforce this throughout class
- This makes class better, and has been learned the hard way

15

AI policy (see syllabus for full version)

Principles

- Do not submit other's (including AI) work as your own
- Use a tool if it's good for the long-term retention of this material, do not use if it's bad for long-term retention.

Policies

- Surveys & Applications
  - Submitting any AI-generated survey response is an honor code violation.
- Persuasive email – no disclosure needed
  - Use however you might for an email
- MIYO (final project) – full disclosure needed
  - Many productive ways to use here
  - Do not use for generating text
- Readings
  - Do not use AI summaries of class readings.

16

Course Objectives

Improve your situational awareness

- A deeper understanding of power & politics in organizations
- Greater sensitivity to how these vary by situation

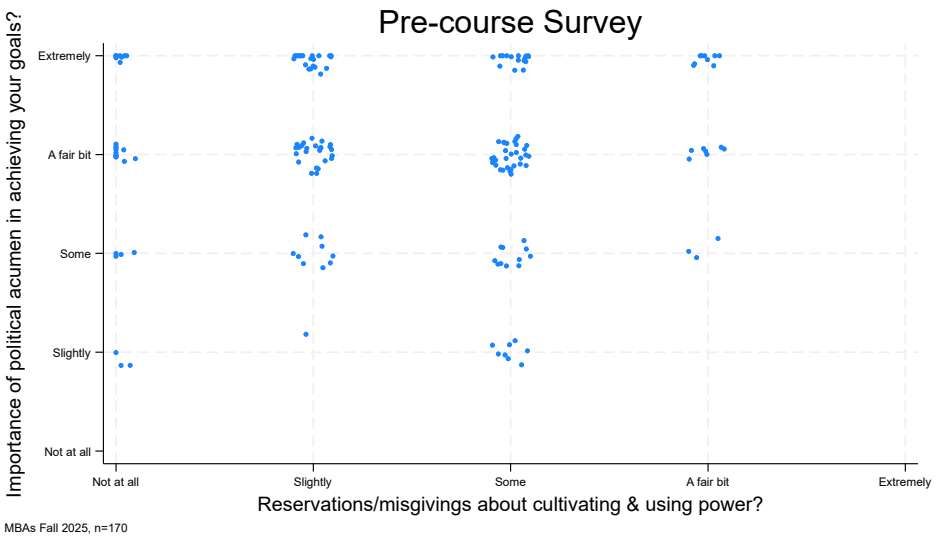

Deepen your toolbox

- Tools for navigating existing dynamics…
- …as well as for changing those dynamics

Overall, to increase your effectiveness in organizations.

=> Politically savvy, not a political animal!

17

18

Admin: Next Class

Do the Sergio de Mello readings

- Required: 2 chapters from Samantha Power's book
- Optional: 2 more chapters from Power's book

Complete the Survey (about de Mello)

(A note about the readings)

19

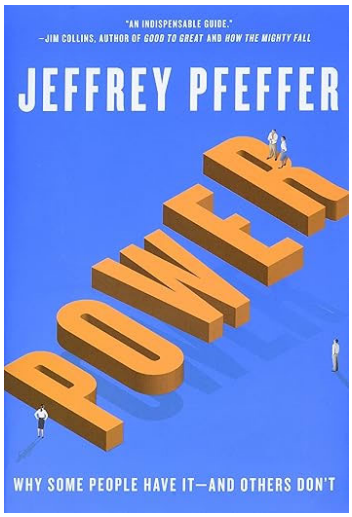

The New York Times

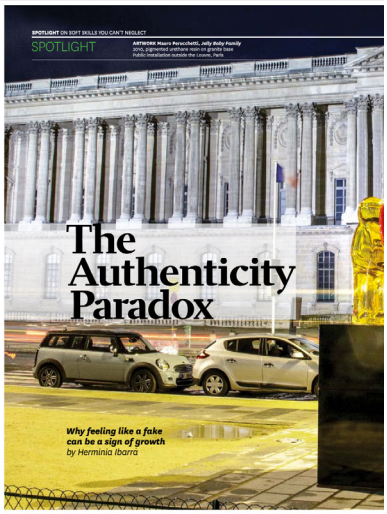

Pope With the Humble Touch Is Firm in Reshaping the Vatican

By JASON HOROWITZ and JIM YARDLEY JAN. 13, 2014

20

21

Ibarra (The Authenticity Paradox)

"The only way we grow as leaders is by stretching the limits of who we are doing new things that make us uncomfortable but that teach us through direct experience who we want to become. Such growth doesn't require a radical personality make over. Small changes in the way we carry ourselves, the way we communicate, the way we interact often make a world of difference in how effectively we lead."

22

"Analytics Ablaze" Case Discussion

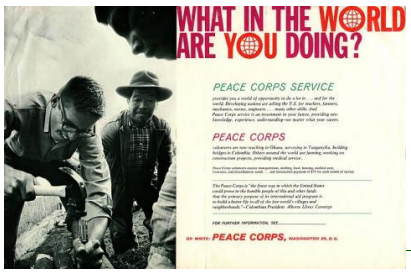

23

More background on "Mitch"

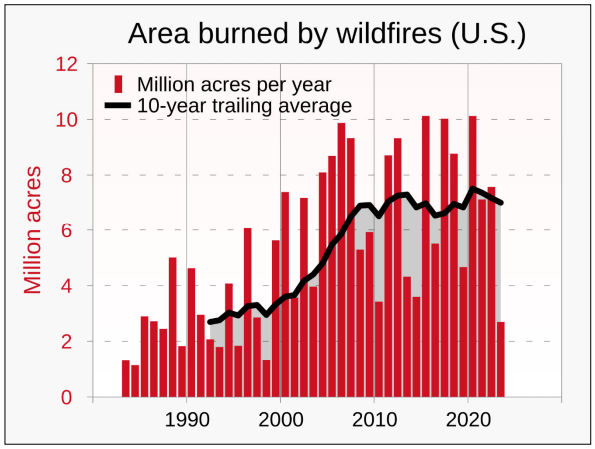

24

An increasing problem

More than a century of fire suppression
=> "Fire paradox"

Spread of population, agriculture

Higher temperatures

25

Controlled burns (vs. Uncontrolled)

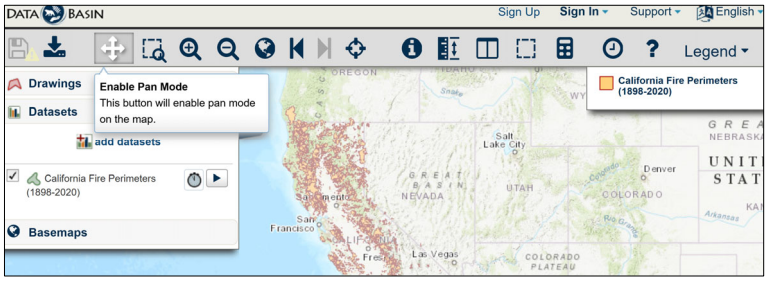

26

What would you need to know in order to choose to let a fire burn rather than suppress it?

How would you get that information?

27

Fire analytics

Journal of Animal Ecology

British Ecological Society

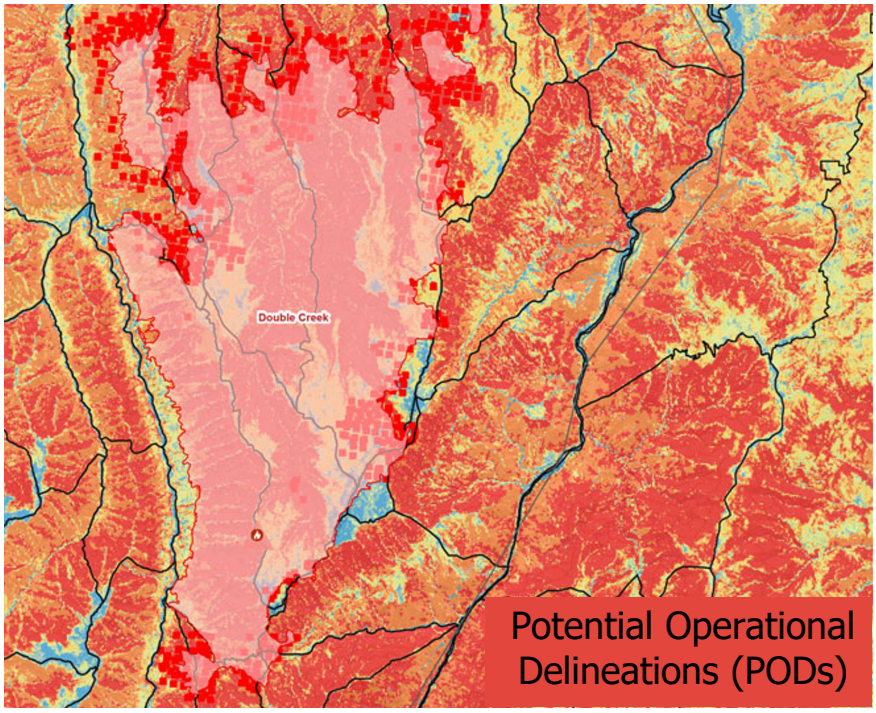

Journal of Animal Ecology 2008, **77**, 802–813 doi: 10.1111/j.1365-2656.2008.01390.x

A working guide to boosted regression trees

J. Elith[1]*, J. R. Leathwick[2] and T. Hastie[3]

[1]School of Botany, The University of Melbourne, Parkville, Victoria, Australia 3010; [2]National Institute of Water and Atmospheric Research, PO Box 11115, Hamilton, New Zealand; and [3]Department of Statistics, Stanford University, CA, USA

28

29

Fire Lab (Missoula)…

…vs. Firefighters?

30

Analytics Ablaze

Where else have you seen these kinds of dynamics?

31

Group Breakouts

Which strategy should Mitch prioritize? Why?

- Field trip
- Individual presentations
- Leverage authority
- Improved model

32

A couple of follow-up questions

Is this an intellectual battle or a cultural battle?

Does your strategy depend on the answer?

33

"Analytics Ablaze" Epilogue

34

Debrief, by way of 3 quotes…

35

#1: "I still didn't know what I was doing. I was just solving problems."

36

Reggie Love, on promotion to Deputy Political Dir in Sen. Obama's office:

"I still didn't know what I was doing. I was just solving problems."

Authors@Wharton
3/16/15

37

#2: "I'm gonna hit on this again and again: if people don't trust you they're not going listen to you."

38

Alec Scheiner

Current:

Founder, Private Equity / Sports Investing

Previously:

President, Cleveland Browns, Dallas Cowboys

JD

39

"Embed Yourself"

A (then) NFL President, about his first analyst:

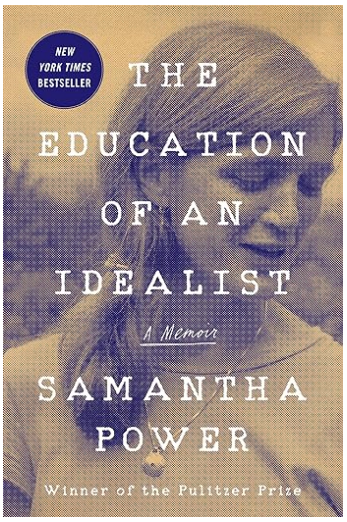

We hired an analytics guy and I always tease him because he wears our team's t-shirts every day to work. I'm like, "You didn't do that in your old [software] firm did you? You're just wearing t-shirts to work every day, and pullovers?" But there is a point to it, right? He's dressing like our coaches and our scouts, and they feel more comfortable with him. If he came in every day in a suit and tie he'd be like a foreigner in their land. **And I'm gonna hit on this again and again: if people don't trust you they're not going listen to you.** They might act like they're listening to you but they're not. First you have to build that trust. And one way to do it is to really learn about what they do, and to do that you have to just embed yourself. Work near them, go out with them. See what their day to day is, see what their challenges are. That's really what we spend most of our time worrying about.

40

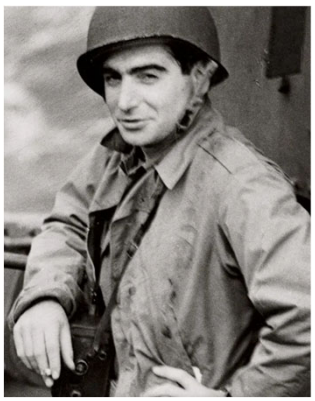

#3: "If your pictures aren't good enough, you're not close enough."

41

Samantha Power's "tactics"

"If your pictures aren't good enough, you're not close enough."
- Robert Capa

42

Normandy invasion on D-Day, soldier advancing through surf, 1944 by Robert Capa

43

In sum

The key takeaways for this case are the most central themes in the entire course:

- Be valuable
- Be trustworthy

In the eyes of those you want to influence! They get to decide.

This is your problem to solve.

44

A mini-lecture on beliefs…

45

"Just-World Hypothesis" (Lerner 1982)

Most people believe that "people get what they deserve; that is, that the good people are likely to be rewarded and the bad to be punished."

46

"Just-World Hypothesis" (Lerner 1982)

Jeff Pfeffer: Just-World Beliefs…

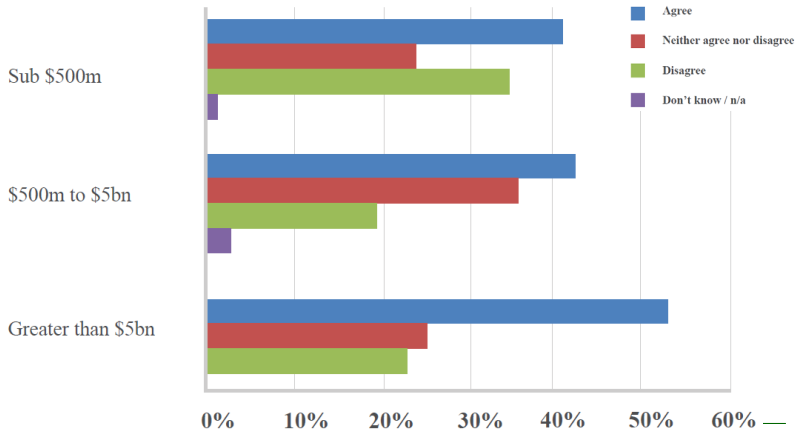

- Anesthetize people to the need to be proactive in building a power base.
  - Chinese saying: "Peaches and plums do not have to talk, yet the world beats a path to them"
- Hinder people's ability to learn from all situations and all people, even those whom they don't like or respect.

47

2014 Survey of 174 Senior Execs

Written by The Economist Intelligence Unit

CHART 6: To what extent do you agree with the statement: "Company politics trump evidence in decision-making"?

48

Just World vs. Rough World

Just World	Rough World
Good things happen to good people, bad things happen to bad people.	Good and bad things happen to both good and bad people.
Hard work always pays off.	Hard work often pays off.
Good intentions are rewarded	Good intentions are sometimes considered
Merit trumps relationships	Merit and relationships matter.

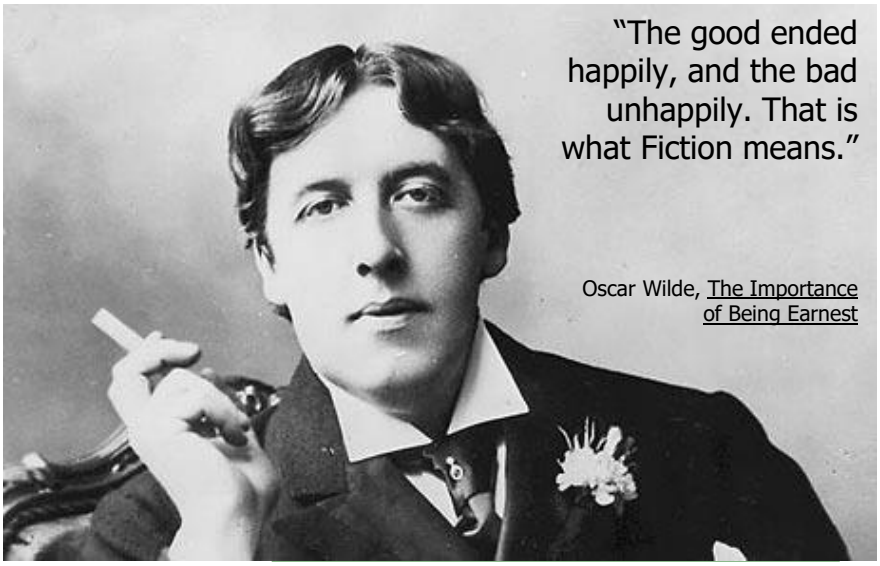

49

There are righteous ones who are treated according to the acts of the wicked,

and there are wicked ones treated according to the acts of the righteous.

- Ecclesiastes 8:14

50

"The good ended happily, and the bad unhappily. That is what Fiction means."
Oscar Wilde, The Importance of Being Earnest
